

SlimDRY

Great things do really come in small packages. This tiny hand dryer is just 10cm deep and 17cm wide making it one of the smallest hand dryers available in the UK. You'll be surprised, given the size, at the sheer airspeed of this hand dryer. It takes hands from wet to dry in an impressive 10-12 seconds. It's also got a very nice blue neon down light when hands are in the drying zone. When space is at a premium then this is the dryer for you

Performance

Drying time (Max Setting)	10 - 12 seconds
Motor speed	32,000 rpm
Air speed	100 meters per second
Adjustable Heat	Auto adjusts for optimal efficiency
