## Technical Specification

Material	Burn proof ABS
Colour	Graphite Silver
Rated Voltage	ACC220-240
Rated Power	1900w (Warm) / 800w (Cool)
Installation	Wall Mounted
Rated Frequency	50/60Hz
Current	10amp
Average Drying Time	10 Seconds
Drip Proof	IPX1
Noise Level	72db
Operation	Infra-Red
Net Weight	10.5Kg
RPM	25,000
Size	299mm w / 633mm h / 219mm d
Warranty	2 Years

## Useful Information

Aptly named, the Ninja is in a class of its own! Place your hands inside it's illuminated drying zone and the LED count down timer begins counting from 12. Hands down for 6 seconds, then up for 6 seconds and your done! Its dual jet blades are angled perfectly to dry both sides of your hands at the same time meaning a faster and more even dry than traditional hand dryers. Once more, waste water is held in an integrated collection tank so no more puddles or slips on your wash room floor! Our forward-thinking design also gives you a small viewing window on the base of the unit making it very easy for cleaning personnel to identify when it needs emptying, so it will never overflow!

The Ninja can be adjusted to suit your user's needs. You can have the heating element off completely giving a cool air dry (like most jet dryers) or you may choose to add a little warmth. The choice is yours!

The reduced noise level and built in air filter also makes the Ninja one of the quietest and most hygienic dryers of its class in the World. It's easy to see why this dryer is so popular!

In the Box: 1 x Ninja Jet Blade Hand Dryer, Screws, Wall Pa and Wall Plugs, User Manual
