- **AIR SPEED** – 100 Meters per second
- **SUITED TO BUSY WASHROOMS** – Built for very busy wash rooms
- **TWO YEAR WARRANTY** – If it breaks we will fix or replace it.

Technical Specification

Material	304 Stainless Steel
Colour	Black
Rated Voltage	ACC220-240
Rated Power	18000w
Installation	Wall Mounted
Rated Frequency	50/60Hz
Current	10amp
Average Drying Time	10-12 Seconds
Drip Proof	IPX1
Noise Level	75db
Operation	Infra-Red
Net Weight	5.5Kg
RPM	25,000
Size	290mm w / 320mm h / 170mm d
Warranty	2 Years

Useful Information

The Storm leaves most of its rivals behind when it comes to its sheer drying power. We've all had to endure hand dryers in the past that are so slow that you end up drying your hands on your clothing! Let us assure you that the Storm certainly doesn't fall into that category. Its powerful heavy-duty motor produces warm air wind speeds of around 100 meters per second taking hands from wet to dry in an impressive 8-10 seconds on average! A previous customer said, 'This dryer is so powerful it could dry your feet!'

The brushed satin steel shell is very easy to keep clean and is very durable. The steel itself is both rust proof and vandal resistant meaning that it should look great for many years to come.

Looking under the shell you will find a quality 25,000rpm motor and a sensor that is fully adjustable meaning you can set the sensing distance (if you wish to do so). The Storm powers up extremely quickly when hands are placed beneath it. It powers down as soon as they are removed giving no wasted running time and no wasted electricity.

The Storm is one of our most popular hand dryers!

In the Box: 1 X Black Storm Hand Dryer, Screws and Wall Plugs, User Manual
