

Ninja Jet Blade™ Hand Dryer with Digital Brushless Motor

Technical Data

Operating Voltage: AC220-240

Air Speed: 90 Meters Per Second (Adjustable Increase / Decrease)

Air Temperature 40 – 60c (Adjustable or Auto Sense)

Noise Output: 70 – 73Db (70 on medium air speed, 73 on high)

Motor Type: 800 Watt Long Life Digital Brushless Motor

Heating Element: 850 Watts

Rated Power: 0.75 – 1.85Kw / 3.54 – 8.74 Wh Per Dry (On Auto Setting)

Thermal Protection: Auto Resetting Thermostat Turns Unit Off at 115 Degrees

Total Rated Power: 1650 Watts

Estimated Average Drying Time: 10-14 Seconds

Operation: Infra Red

Water Resistance: IPX4

Water Collection System

Timing Protection: 30 Seconds Auto Cut Off

Shell Material: Antimicrobial Burn Proof ABS

Dimensions: 300 x 220 x 687 mm

Net Weight: 11kg

Filter: High Grade HEPA and Micro Mesh Particle Filter

Rear Cable Entry View

Cable entry is very flexible as there are lots of grooves and channels you can feed your wiring through.

Very Easy to wall mount using the provided brackets and screws.
